Lawyers for the People

The National Lawyers Guild was founded in 1937 as the nation’s first racially integrated bar association. During its 65 year history, the NLG has been an important part of the movement for economic and social justice, for real democracy, and the American people’s struggle against oppression and discrimination based on race, ethnicity, immigration status, class, gender or sexual orientation. Our aim is to bring together all those who recognize the importance of safeguarding the rights of workers, people with disabilities, and people of color; who seek actively to eliminate racism; who work to maintain and protect our civil rights; who believe that human rights are more sacred than property interests; and who look upon the law as an instrument for the protection of the people, rather than for their repression. Consistent with its commitment to ensuring fairness and equality for all people, law students, non-lawyer legal workers and inmate legal experts are full members.

The SU student chapter of the National Lawyers Guild will hold a fall membership and informational meeting on September 15, 12-12:50pm, in room 328. All are invited to learn more about NLG, the organization for lawyers who believe the law should value people’s rights over property rights. We will also be discussing the events our student organization has planned for the Fall semester. Pizza will be served.
